

My Portfolio

I/ Contact Info

Name: Do Dang Khoi

Date birth: October 25th, 2004

Phone number: (+84) 779471772

Email: bichinabou45@gmail.com

Nationality: Vietnam

Address: Binh Thanh district, Ho Chi Minh city

II/ Education

Ho Chi Minh City University of Science (HCMUS)

Faculty of Electronics and Telecommunications (FETEL)

- Major: Embedded Systems, Applied AI, and Cloud Computing.

III/ Work Experience

Artificial Intelligence & Computer Vision Intern

Viettel Telecom (02/2026 - 04/2026)

- Researched and implemented advanced Deep Learning architectures and Machine Learning algorithms for computer vision tasks.
- Optimized object detection, image classification, and tracking models to improve inference speed and accuracy.
- Collaborated with team members to simulate and deploy AI pipelines on cloud infrastructure.

IV/ Technical Skills

1. AI & Machine Learning

- Models: Linear/Logistic Regression, CNN, RNN (LSTM, GRU).
- Frameworks: Python, AI Model Simulation.

2. Embedded Systems

- Platform: Intel SoC FPGA Board.
- Techniques: RTL Design (Verilog/VHDL), Linux Kernel Modules.

3. Cloud Computing

- AWS: S3, API Gateway, Lambda, DynamoDB.
- Tools: Terraform, GitHub Actions.

V/ Personal Projects

1. AWS FinOps Dashboard (CLI)

- A terminal-based AWS cost and resource dashboard built with Python and the Rich library.
- 5000+ downloads on PyPI, 600+ stars on GitHub, and 180+ forks.

2. AWS FinOps MCP Server

- An MCP server that brings powerful AWS FinOps capabilities directly into your AI assistant.

3. The Cloud Squad

- A web application that helps users assess their AWS certification exam readiness.
- 700+ tests taken.

VI/ National and International Research Projects

1. Coordination of Funded Projects

- General PI of “A taxonomy Biomolecular, Biosources and Bioactivities to unleash the potential of Biodiversity through a Web-based platform (B4Web)”. Grant received: 800k euros.
- local PI of “Forgetfulness, between rights, duties and technological possibilities” project, PRIN. Grant received: 51.8k euros.
- Co-PI of “Network analysis for anomaly detection” project. Grant received: 80k euros.
- PI of “Analysis and Monitoring of Artificial Intelligence Systems” project. Grant received: 30.5k euros.
- PI of “Innovation in Advanced Analytics: analysis of banking transactions networks” project. Grant received: 150k euros.
- PI of the Computer Science Department research unit of “Big Data and Internet of Things, financial and insurance fields”. Grant received: 35k euros.

2. Participation to Research Projects

- “AI Aware” project, co-financed by University of Turin.
- “Be Positive: Understanding and tackling online hate speech in Italy” project, financed by Google.org.
- “M.EMO.RAI”, financed by RAI - Radiotelevisione Italiana. Grant received: 40k euros.
- “Hate Speech & Social Media”, financed by Fondazione CRT. Grant received: 30k euros.

- “IhatePrejudice: Immigrants, Hate and Prejudice in Social Media”, financed by Compagnia di San Paolo. Grant received: 77k euro.
- “Gestione sicura ed affidabile del livello applicativo per la distribuzione peer-to-peer di contenuti”, Co-financed by MIUR.

VII/ Patents

Learning and reasoning from web projections with Eric Horvitz and Susan Dumais.

Resource browser sessions search with Ralph Sommerer, Robert Tucker, and Natasa Milic-Frayling. No. 7225407.

Navigating a resource browser session Patents with Ralph Sommerer, Robert Tucker, and Natasa Milic-Frayling.

“System and Method for Prediction of Self-Similar Signal,” United States Provisional Patent Application (File No: 61/592,352).

VIII/ Research Experience

Yahoo Research, Santa Clara, CA: Worked with Ravi Kumar, Andrew Tomkins on evolution and modeling of social networks. And with Michael Mahoney and Kevin Land on community structure in large networks.

Microsoft Research, Redmond, WA: Worked with Eric Horvitz and Susan Dumais on web search query modeling, and the dynamics of a instant messenger network of 240 million people.

Hewlett Packard Laboratories: Worked with Bernardo Huberman and Lada Adamic on the dynamics of person-to-person product recommendations in a large social network.

Carnegie Mellon University: Worked with Christos Faloutsos on problems posed by large graphs.

Royal Holloway University of London: With John ShaweTaylor on text classification on uneven training datasets.

Jozef Stefan Institute, Slovenia: With Marko Grobelnik and Dunja Mladenic. Projects on machine learning, mining documents and graphs, document summarization, text to speech synthesis.

IX/ Scientific Community Activities

1. Talks and Tutorials

- Invited talk at Joint Statistical Meeting on Analysis of Online Communities
- Accepted full day tutorial to WWW (International conference on World Wide Web)
- Invited talk at High Performance Computing on Large Graphs, SIAM Conference
- Tutorial on Mining and Modeling Large Networks at ECML/PKDD
- Tutorial on Diffusion and Cascading Behavior in Social Networks, NATO

2. Program Committee Member & Reviewer

- Committees: ICML, KDD, WWW, WSDM, ICWSM, PKDD/ECML, NESCAI.
- Reviewer for: JACM, JEA, ACM TKDD, MLJ, IEEE TKDE, Data Mining and Knowledge Discovery, NIPS.
- External Reviewer: CIKM, AAAI, SIGIR, ECIR, ICDE, ECAI, IJCAI, SIAM DM.

X/ Program Committees and Editorial Activities

Associate Editor of “EPJ Data Science” journal.

Lightning Co-Chair “COMPLEX NETWORKS - The 11th International Conference on Complex Networks and their Applications”.

Editor: “Special Issue on Network analysis and computational social science”, Future Internet, MDPI.

General Co-Chair of ACM Conference on Hypertext and Hypermedia.

XI/ Services & Academic Roles

Associate Editor: Enterprise Information System, International Journal of Industrial Engineering.

Conference Co-chair of Korea-Canada Conference (Vancouver, Niagara Falls, Kanaskis).

Associate Chair of Undergraduate & Graduate Studies, Department of Mechanical and Industrial Engineering, University of Toronto.

XII/ Scientific Advisor & Industrial Collaboration

1. Public and Private Institutions

- Member of the Advisory Board of CINI’s “National Big Data laboratory”.
- Scientific Advisor of the “Innovation in advanced analytics”, on behalf of Intesa Sanpaolo Innovation Center.
- Vice Head of “SIPLab - Social Information Processing” laboratory, on behalf of CSP Scarl.

2. Industrial Consulting

- Facebook, LinkedIn, Amazon, Sprint, AOL.
- Birmingham Midshires bank, UK.
- Microsoft Live Labs, Yahoo Research, HP Labs.

XIII/ Academic Honors, Awards & Funding

1. Awards

- Best student paper award at 13th ACM SIGKDD International Conference.
- Microsoft Graduate Research Fellowship.
- Winner of the KDD Cup on estimating the download rate of scientific articles on Arxiv.
- Govorec, a Slovenia text to speech system, awarded as best innovation for disabled of the year.
- Canadian Foundation for Innovation Researcher.

2. Funding Obtained

- \$4,000 donation from Yahoo Research to record and publish CMU Machine Learning Lunch seminar talks.
- \$75,000 Yahoo Research Alliance gift titled "ShatterPlots: A New Tool for Graph Mining".
- \$337,000 for NSF project "Finding Patterns and Anomalies in Large Time-Evolving Graphs".
